President’s Message

HEALTH, SAFETY, AND ENVIRONMENT

Fox Drilling Inc.’s corporate decree is to provide unparalleled drilling services with distinction relative to health, safety and environmental performance. To ensure that safety is regarded as the single most important priority without compromise requires the dedication and support of every Fox Drilling employee and contractor. As the saying goes...“safety doesn't happen by accident.”

As a responsible organization, Fox Drilling Inc. subscribes to, develops, and strives to make continual improvements to its HSE performance because we care about the well-being of our employees. The information contained within our Safety Manual and Handbook has been designed with purpose to be practical, easy to understand, and user friendly as a discipline. Our commitment to ensuring that safety is priority one and to be maintained at all times is unyielding. Therefore, all employees and contractors are required to comply with Fox Drilling Inc.’s stated policies, standards, and procedures as a basic condition of employment. It simply starts with respect for yourself and one another, while exercising common sense at all times.

It is incumbent upon each and every employee and contractor to strive to improve our workplace conditions and to become an active participant in fostering an HSE culture that is both recognized and moreover something that we can all be proud of. Culture can be defined as a belief or practice in something and to that end we firmly believe that leadership is a proven behavioral quality that will continually inspire safe working practices.

I would kindly challenge all of us who work for and on behalf of Fox Drilling Inc. to lead by example and continue to inspire one another to become the benefactors of safe working conditions and proven practices.

Josh Berezay
President
